Profile

I am from Berhampore, Murshidabad and currently I'm pursuing my B.Tech degree in Electronics & Communication Engineering from Techno Main Salt Lake, Kolkata.

[ICSE- 2017]

[WBHSE- 2019]

[B.Tech: 2019-ongoing]

Skills

- Python Programming
- C
- Java
- Data Structure & Algorithm
- HTML, CSS, Js

Projects

- A.I. Desktop assistant: I created an A.I. assistant with the help of Python programming which is capable of taking multiple commands as speech and executing them accordingly.
- Spotify Clone: I made a clone of the Spotify website using HTML, CSS, Js. It is a functional site where users can play/pause any music in the playlist and can also access to more songs.
- Snake-Game: This was my first Python project where I made a G.U.I. based game. Here the user had to feed the snake and scores would be displayed as per that.
